EYELID HYGIENE IN PREPARATION FOR CATARACT SURGERY

It is important for your eyelids to be as clean and healthy as possible prior to your surgery.

Fill the prescription for AzaSite eye drop at your pharmacy.

Start eyelid hygiene five (5) days before your surgery unless otherwise instructed.

Continue using all other prescription eye medications as instructed. This includes those for cataract surgery, glaucoma, and dry eye.

HOW TO USE AZASITE

1. Turn the closed bottle upside down.
2. Shake bottle to move contents into the tip of the bottle.
3. Keeping bottle upside down, remove the cap.
4. Tilt head back and gently squeeze one (1) drop into your eye.

Begin using AzaSite five (5) days prior to your surgery.

Use 1 drop 2 times a day (morning & evening) in the eye scheduled for surgery.

STOP on the evening prior to your surgery.
